

LYON equipment

From ladders and 'black' slings through to rope and kit bags, Lyon Equipment manufactures a huge range of products for work at height and rescue, including technical and non-technical textile and wire based products.

As well as producing high quality individual items they also assemble equipment into bespoke kits that will enable you, with specific training, to undertake work or rescues from height or confined spaces, including:

- Pick-off type rescue kits for construction, theatre and Emergency Service users
- Personal evacuation kits for forklifts in high bay warehouses, mobile elevating working platforms and from high level 'mast climbing' suspended platforms
- Emergency recovery systems from wood poles, masts and pylons for utility workers.
