

For more than 30 years Petzl has led the way as an innovator in the research, design and manufacture of quality head torches. The range includes:

- PIXA: for professionals who regularly work in the dark, providing hands-free light for efficient, comfortable work. Durable, reliable, easy to use, and versatile, there are 4 models for different uses.
- DUO: for work in difficult conditions, they are waterproof and resistant to shock, abrasion, dirt and water. Two light sources can be oriented to provide long-range or close-range lighting.
- ULTRA and ULTRA BELT: for activities requiring both powerful and wide lighting. The two versions enable the user to reduce bulk (ULTRA) or weight carried on the head (ULTRA BELT).
