

Rigger pulley

Conforms to CE EN 12278:1998/UIAA

- Hot forged aluminium side plates provide strength and durability
- Heat treated stainless steel spindles for high strength and corrosion resistance
- Pre lubricated sintered bronze bearings for smooth operation
- Riveted and tamperproof assembly
- Individually marked for traceability

All technical specifications are approximate and do not form part of any contract. Unusual Rigging cannot accept any responsibility for errors and omissions and reserves the right to make changes. The user must determine the suitability of any products for their own particular purpose, both alone and in conjunction with any other product and shall assume all risk and liability in connection with them.
